University of California Requirement

The health insurance requirement is a UC Regents mandate and applies even and especially during these uncertain times.

Every student must have comprehensive health insurance that covers them for primary care, outpatient diagnostic services, inpatient hospitalization, and mental & behavioral health in San Diego.

Students that are classified as International must have coverage for medical repatriation and evacuation to successfully achieve a health fee waiver.
The health fee is one of the registration fees on every UC student’s bursar account.

HMO, Kaiser, and Medi-cal Recipients

The health insurance requirement may be met with County assigned medi-cal, Kaiser, and HMO coverage. Students covered by medi-cal or a private insurance HMO must have access to primary care in San Diego County in order to waive the health insurance requirement successfully.

*We accept Kaiser Northern CA, but you will need to call and get your student a Southern CA medical record number, in case they need care while at UCSD.

Contact your insurance carrier to transfer to a San Diego PCP prior to filing a waiver.

Medi-cal recipients will need to contact their Case Worker to request a county transfer, this can take up to 45 days. If your student doesn’t have a campus address, you may use the school address to start the Transfer request. Update your Case Worker as soon as possible with your mailing address, so you receive any notices they may mail out.
